

## Environmental Statement

Altech Engineering Ltd is committed to preventing pollution and to complying with all relevant environmental legislation, regulations, and other environmental requirements.

We will regularly evaluate the environmental impact of our activities, products and services and we will take action to continually improve our environmental performance.

It is our policy to:

- Minimise the use of energy, water, and natural resources.
- Minimise waste through prevention, re-use and recycling where possible.
- Dispose of waste safely and legally.
- Avoid the use of hazardous materials (RoHS), where practical.
- Work with environmentally responsible suppliers; and,
- Prevent environmental damage and minimise nuisance factors such as noise and air pollution.

We will define environmental objectives, targets and improvement actions that are related to this policy and to our significant environmental aspects. We will regularly evaluate progress.

We are committed to providing relevant environmental training and promoting environmental awareness to staff and, where appropriate, to suppliers and to communicating our environmental performance.

We will implement processes to prevent environmental non-conformities and to ensure that we are prepared to deal with potential environmental emergencies.

We confirm that we have followed industry guidelines and taken all reasonable steps - based on analysis, vendor analysis, material certifications and declarations and/or lab test results of the materials used - to confirm the accuracy of this statement according to the most current version of the requirements.

If changes in material, manufacturing methods, or supplied products occur which impact the validity of any of the above statements we shall notify you prior to the delivery of any product.

This policy will be regularly reviewed and updated to take account of organisational priorities and changes, environmental legislation, and best practice.
